

MYSTERY WEBSITES

Adults

Play Sleuth - <http://playsleuth.com/> - Sleuth is an open-ended, **detective role playing game** (RPG) where you solve **mysteries** by searching for clues, questioning suspects and interviewing witnesses. Every mystery is unique with different victims, suspects and clues. All mysteries are solvable, in fact there are always two ways to solve any single mystery, but player skill and a small amount of luck are necessary to nab the guilty suspect. Sleuth contains literary violence and mildly suggestive themes. It is intended for players 13 years of age and older.

Gumshoe Online <http://www.gumshoe-online.com/community.php>

An Internet browser based game, with budding sleuths from every corner of the globe can take part in the investigations. Currently players from over 100 countries are registered with the game.
